

Are you looking for a dynamic role with a dynamic company? If so The Body Shop is the organization for you!

As part of the L'Oreal Group, The Body shop is a major international beauty retail business. To bring our stores and products to life, we have a team of exceptional individuals working tirelessly behind the scenes.

If there is such a thing as the "it factor" in business, it is at The Body Shop, where you will discover how to work in a fast paced, energized work environment, helping to ensure our customers receive the best beauty products on the market.

As a **Customer Consultant** you will be responsible for meeting sales goals as set forth by the Shop Manager. You will also need to have a full understanding of our products and be able to communicate this understanding to the customers. The position requires the ability to serve customers in a courteous and professional manner and prior customer service experience is preferred.

About the Brand

The Body Shop International plc, the natural and ethical beauty brand, is uncompromising in its adherence to its Values. We strive for the perfect marriage of creative, innovative and effective products with strong integration of our Values. This continues to differentiate our Brand for 300 million customers worldwide, transgressing cultural and national points of difference everywhere.

We have over 2,800 stores in over 67 countries and territories worldwide. We continue to reach out to customers around the world through opening new stores, launching e-commerce sites, opening sub-franchise businesses and identifying selective wholesale in new markets plus adding new Global Travel Retail locations around the world.

Natural, sensorial and ethical: these are truly the Values that resonate with consumers in the 21st century and this is perfectly aligned with the Brand Values that have been in place at The Body Shop for more than 35 years.

We also have our own charity, The Body Shop Foundation. Launched in 1990 (registered charity no. 802757) we give financial support to pioneering, frontline organizations that otherwise have little hope of conventional funding. The Foundation's focus is to assist those working to achieve progress in the areas of human and civil rights, environmental and animal protection.
